

CALEB CORLETT

25 Moose Hill RD, Livermore Falls, ME 04254 | (207) 391-2072 | cecorlett2@gmail.com

Analytical, flexible and self-motivated student software developer currently learning web dev with React and Typescript but is ultimately resilient, hard-working and will be devoted to delivering high-quality work using any system. Curious and willing to learn new skills and will acclimate quickly to any existing codebase.

PROJECTS AND EXPERIENCE

April 2023

Mondrian Image Generator | Python | Randomly generated Mondrian painting style image generator

The final project for my Intro to Prob Solving Using Comp Programming (Python) class. Recursively generates a Mondrian style image using John Zelle's graphics.py library using easily tweakable parameters for rapid and precise adjustments. Repository viewable at

<https://github.com/CalebCOR/Mondrian-Image-Generator>.

January 2020

Mrs. Corlett's Corletters | Javascript | Browser-based game made to help teach kindergarteners how to read

Very simple game made to learn the basics of javascript and help my mother teach her kindergarten class how to read via online means from when classes went online. Is currently still used throughout the district and can be found at <https://srettelroc.wixsite.com/corletters>.

May 2019 – December 2019

Crew Member | McDonald's | Western Ave, Augusta, ME

Worked together diligently with other crew members to quickly deliver high quality products to a large number of customers daily. Learned to be vigilant and pay attention to my coworkers' daily condition and work habits to most effectively boost productivity as a team. Learned how important a clean environment is for efficiency.
